

Canvas® Integration

Learning Management System Course Evaluation Connector

Class Climate's Canvas integration makes it more convenient for students and instructors to access their course evaluations from their Canvas home page. The integration is available as a Learning Tools Interoperability (LTI) connector.

Together, Class Climate and Canvas work to increase student response rates and to encourage honest feedback.

The **student portal** provides each student with a list of their open online evaluations.

Each survey opens in a new browser window. After students complete a survey, the window displays which evaluations they have completed and which are pending, so they can complete all their evaluations at once.

The **instructor portal** provides a list of each instructor's classes, showing the evaluation response rate and providing access to the most current results report.

Student Portal

The screenshot shows the 'My Survey Dashboard' for a student. It lists several surveys with their status and closing dates:

Course	Status	Closing Date
Engineering Introduction (ENGIN-1245RUE)	Pending	Closes in 3 Days (10/09/2016 at 03:01:00 pm)
Language And Gender: Introduction To Gender And Stereotypes (LING-405 Sec2)	Pending	Closes in 5 Days (10/11/2016 at 04:30:00 pm)

Linear Algebra/Calculus of Variations (ALG-125ERD- Sec1)	Submitted	Submitted

A 'Did You Know?' section at the bottom states: 'Your survey results are anonymous! Every survey has a minimum number of students who must respond in order for instructors to receive a summary report. This further protects your anonymity. We encourage you to participate and help your university understand instructional effectiveness and plan continuous improvement initiatives.'
