*All Windows hotfixes and service packs must be installed.

Installation Notes

- Scantron recommends using a dedicated server for ParTest Online. If this is not possible, please notify Scantron about any preinstalled software to ensure a smooth installation process.
- Before installing ParTest Online, Internet Information Services (IIS) must be setup and configured. (Note: In Advanced settings of the IIS app pool, the Enable 32-bit applications setting should be set to **True**.)
- Before installing ParTest Online, websites should be created.
- Administrator rights are required to install and uninstall ParTest Online.

Additional Notes

- ParTest Online is UAC compliant.
- ParTest Online is limited to 100 concurrent users, including administrators.
- ParTest Online, including browser access, is supported in virtualized server environments.
