The Perfect Companion for Automated Tests

Scantron brings you a complete package to easily and quickly develop and manage student records and test information, analyze test outcomes, and report scores. ParScore gives your instructors more time to do what they do best—teach.

ParScore is a comprehensive, easy-to-use test scoring software solution. It features an electronic gradebook, subtesting capability, user-defined mastery reports, and program-wide assessment results management.

Provide your instructors with the benefit of tools to monitor individual student growth and understanding of course material.

ParScore is at the Top of the Class in Flexibility

ParScore users become believers because it's so comprehensive, yet so flexible:

- Easily develop and manage student records and test data.

- Create customized class rosters for a controlled, specific view of student results.

- Track and view your data using a wide variety of data options.

- Define your own grading criteria.

- Report scores and grades as Raw, Percent, Stanine, T-Score, Z-Score, Percentile, and User-defined T-Score.

- Merge student test results from standardized tests so performance can be compared across classes or an entire program.

- Create mastery reports to compare performance by user-defined demographic data such as gender, socio-economic status, and ESL.

- Export roster data and scores.

- Score up to 26 versions of tests with up to 200 questions each and evaluate up to 26 responses per item.

- Ensure instructors are working from the most recent roster by importing information in a comma-separated file format from other applications.

Multiple Comprehensive Reports Available

Mastery Report	Progress Reports	Item Analysis
Subtest Reports	Roster Reports	Class Response
Student Profile Reports	Student Test Reports	Score Distribution
Error Log	Enrollment	
Grading Criteria	Course List	

How You Can Score with ParScore

Students enjoy the instant feedback, precision and accuracy of ParScore. Your interest in their test and quiz outcomes will surely be an incentive for learning and classroom participation. So, in the end, automating your assessment scoring gives you more time for good old hands-on instruction.

How ParScore Fits Into The System

ParSystem is Scantron's integrated suite of powerful software modules that allow you to create, administer, and score tests on paper or over the Internet.
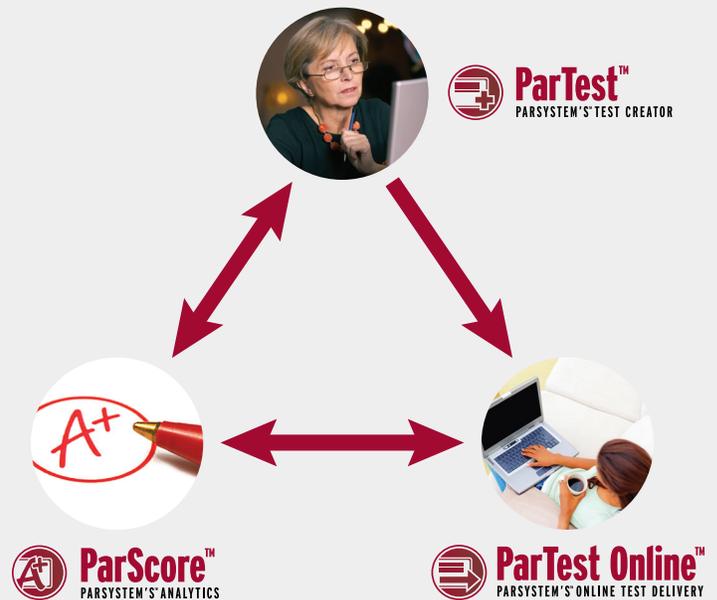

ParSystem's three ingredients—ParTest, ParTest Online, and ParScore—all fit into Scantron's overall student achievement package.

With ParTest, teachers can develop multi-format tests from numerous item banks.

ParTest Online enables test takers to test via the Internet.

ParScore completes the suite allowing educators to manage student records, analyze test outcomes, and create a variety of reports.

ParSystem: Unified Assessment Solution

ParTest™ PARSYSTEM'S TEST CREATOR

ParScore™ PARSYSTEM'S ANALYTICS

ParTest Online™ PARSYSTEM'S ONLINE TEST DELIVERY

ParScore captures assessment results from ParTest and ParTest Online, then analyzes and stores the results in a class roster. Once test results are analyzed, ParScore posts item analysis data back to ParTest item banks so you can measure the effectiveness of testing items. Finally, ParScore provides an enrollment file for ParTest Online, ensuring online tests are only available to the appropriate students.
